

# Suixtil roars “back on tracks”

**Suixtil** is immensely pleased to announce that it will be present at the Mille Miglia this year! Only in fairy tales and the world of classic car races could such a great news happen: When Marc and Olivier –shown here in their **Suixtil** uniforms- found their 1954 O.S.C.A, they noticed the original markings on the back hood, spelling “SUI XTIL” and after much research, realized it was the brand that had adorned such legendary drivers as El Chueco (JM Fangio), Roberto Mieres –from whom they purchased the car, Peter Collins, Stirling Moss, Paul Frere, Maurice Trintignant, Wolfgang Van Trips and many more.

Stumbling on the **Suixtil** website, they then realized that the passion of the time lives on and contacted us. Of course we were delighted to agree to sponsor their racing uniforms and then eagerly waited for the results of the registration for their first race: the Mille Miglia.

Now confirmed as an accepted type, the OSCA has gone through extensive preparation and restoration to allow it to compete during this grueling race and we are so excited to be part of the adventure that we can barely wait until May to see it come through the finishing line in Brescia.

Hilde Debusscher of **Suixtil**, when told about the good news, exclaimed “This is just fabulous! What better way for us to bring back the legend than with a car that was originally sponsored by Suixtil during its glory days and at a race that all our heroes have also undertaken at some time and that Enzo Ferrari called “the most beautiful race in the world”. We are so proud and encouraged to be sharing the experience and hope that Marc and Olivier will do us and the entire Escuderia **Suixtil** proud”.

We will of course be tracking the progress of the race on our website at [www.Suixtil.com](http://www.Suixtil.com), and invite everyone to come witness racing history in the making at their leisure. We are also planning to attend some key stages of the race and will be delighted to use the opportunity to meet with friends, fans and anyone who is interested in making a connection and celebrate this other joyous moment in the life of the **Suixtil** brand.
