Carry your racing kit in style

Suixtil has expanded its stylish range of retro race gear with a rally bag. As with all its products, the holdall was inspired by a design spotted in a period photo. The bag, made of blue cotton canvas and featuring leather handles and reinforced trimmings, would be perfect for storing a helmet and goggles. Other details include a lockable zip, interior pockets for stopwatches and the Escuderia Suixtil logo stitched into the side. It costs \$280 and is guaranteed to look even better the more it is used.
